

Driver Education Snow Day Packet Information

Snow and Go Days may be called by Superintendent Cullen for inclement conditions which would mean that students would NOT report to school. When Mr. Cullen calls a Snow and Go Day, your child(ren) will have a set of assignments that they will work on from home to enhance the instruction they receive at school. These assignments will be given by their teacher and will also be available on the school's website and in the main office of the school, if staff has reported for the day.

Assignments will be graded and recorded as normal assignments and will be due on the students return to school. Students should complete the assignment that correlates to the number of days cancelled. Example if school is only canceled for 1 day students should only complete the assignment for Snow Day 1, if school is cancelled for 2 days then the student should complete assignments for Snow day 1 and 2.

Teachers may be contacted through their school email, Live Grades, or through the school telephone should they report to school.
