

Hey parents and students! That time of the week again as we try to avoid people's coughs and sneezes, and we try and do some homework. This week I want you all to write a one paragraph summary of what you have done during this quarantine. I want you to use a simple sentence, compound sentence (properly punctuated), and a complex sentence. If you are unsure as to what these are (even though we went over this numerous times this year, lol) feel free to check out my YouTube series on these different types of sentences here!

Stay safe, you all. I miss you guys and girls!
