If you already have an account from another class just use enrollment code. V58ML

Start with the first module in your list. "How to Ace this Class"

Next one will be "Career Development. "

Do all the electronic worksheets, quizzes and module test. The grades will come to me for all of those. You may retake quizzes and test as many times as you want until you are happy with the grade. If you need me to reset anything so you can redo it immediately message me on live grades and let me know, or you can wait for the time it tells you and it will reset itself so you can retake it.

If you do not have internet for this assignment you will create a journal entry for each day Monday thru Friday that we are off. You will write 3 days about what is going on in your life. You may not write you slept all day. Must be 5 sentences. Each day consider how different careers are affecting you and your families lives. The other 2 days write about a current event you saw or read about. One of those should be a positive feel good news article.

Be sure to date each journal entry.
